## Emergency Procedures

Henry Dalton Elementary School has a disaster plan in the event of an emergency situation. This is a district wide program designed to provide temporary shelter and assistance to our students. Regular drills are held to assure that students and staff are aware of their roles in an emergency situation. During an actual emergency, gates will be locked and students will be released from the North parking lot, unless you are notified otherwise. To ensure an accurate account for every student and maintain their safety, we ask that you please adhere to the following procedures to pick-up your child in case of an emergency disaster:

1. Arrive to school or another designated site immediately after instructed to do so. This communication will be done through our typical means of contacting parents (phone message, email, text and alert through the AUSD app).
2. Form one line (please remember that all the other parents are also there to pick up their children).
3. Adults must show their ID and give the name of the child/children they are picking up. Students will only be released to parents or designees on the emergency card.
4. Wait for your child/children in the waiting area. Your child will be escorted to the waiting area by a school employee or designee.
5. Safety is the number one priority. Please be patient with the process, because our precautions may result in an extended waiting period.

The most likely place for the Reunion Gate (location to pick up your student) in the event of an emergency will be the gate at the far end of the parking lot near the field.

It is vital that your contact information and all information on the emergency card is current. Any time there is a change of address, phone number or contact, notify the school office immediately. You are encouraged to add multiple adults to the emergency card, even if you think you will not ever need them, in case of unusual circumstances.
